Abstract

Project: Gym Administration System

Objective:

A gym administration system schedule list aids in the organization of the member's chosen plan for his or her membership in the fitness gym, and each plan is a one-time payment only, implying that the members membership fees are dependent on their chosen plan, which relates to how long the member will be marked as an active member of the fitness gym.

Features:

- Login Page - This is the page where system users can enter their system credentials in order to gain access to the gym management system info.

- Home Page - The page to which users are automatically redirected after signing in.

- Plan Page - This is the page where you can find and manage fitness gym membership plans.

- Packages Page - This is the page where users can add packages to the list of services they provide to their members.

- Members Page - This is the page where the members of the fitness gym are identified and managed.

- Borrowers Page – The page where all borrowers are listed and can be managed by the system users.

- Loans Page – The page where all list of loans is listed, including the loan applications. This is the page where the system user will manage the borrower's loan data.

- Payment Page – The page where all payments are listed and can be managed.

- Users Page – The page where all loan management system users are listed and can be managed.
